## ABOUT ME

I am a passionate full-stack developer skilled in MERN, Next.js, Typescript, and DSA (Java), and I have experience in AI. Enthusiastic about solving real-time problems by exploring new technologies and building scalable, impactful solutions.

## EDUCATION

| | |
|---|---|
| **B.Tech Computer Science and Engineering** | CGPA: 8.6/10.0 |
| *Keshav Memorial Institute Of Technology* | *Nov 2022 - June 2026* |
| **Intermediate Education** | Marks: 977/1000 |
| *Keshav Smarak Junior College* | *2020 - 2022* |
| **Secondary Schooling** | CGPA: 10.0/10.0 |
| *Gowtham Model School* | *2020* |

## SKILLS

**Programming Languages**: Java, C++, JavaScript, Typescript
**Libraries and Frameworks**: React.js, Next.js, Node.js, MongoDB, Tailwind CSS, Express.js, Flask
**Tools & Cloud Technologies**: Git, GitHub, Postman, Gemini, ChatGPT, Vercel, Netlify, Render, Docker, AWS (S3, EC2)

## INTERNSHIPS

**Full Stack Developer Intern** | scorely.in ⬈      Apr 2025 - Jun 2025

Contributed to multiple Next.js projects during the internship, building scalable front-end features using **Next.js with TypeScript** and writing backend logic with **API routes and tRPC**. I also deployed applications on AWS.

**React Developer Intern** | elsopro.com ⬈      Dec 2024 - Feb 2025

Developed and maintained a website **elsopro.com** using React.js during an internship. Collaborated with a team of developers to implement new features and improve existing ones. Gained hands-on experience in front-end development and enhanced problem-solving skills while working remotely for Blue Digital Media Pvt. Ltd.

## PROJECTS

**WealthWise** | *React.js, MongoDB, Node.js, Express.js, Tailwind CSS, CrewAI* | WealthWise ⬈      Feb 2025

- Developed an AI-powered responsive web application utilising custom algorithms and AI Agents for personalised stock, mutual fund, and fixed deposit recommendations.
- Designed a RAG-based chatbot providing users with real-time financial insights and learning modules, including video tutorials to enhance financial literacy.
- Built an expense tracker to help users optimise savings and reduce unnecessary expenditures.

**Site Ease** | *HTML, CSS, JavaScript, Tailwind CSS* | Download Site Ease⬈      Nov 2024

- Built a Chrome extension to assist people with colour blindness and dyslexia, ensuring seamless accessibility to all sites.
- Designed an accessible UI with colourblind-friendly toggle controls that provide visual feedback appropriate for each impairment type.
- Added dyslexia-friendly features, including special fonts, better spacing, and improved contrast.
- Used Chrome Extension Storage API to save preferences and auto-apply accessibility settings on browser reopen.

**CodeVerse Academy** | *Next.js, Typescript, Prisma, PostgreSQL* | CodeVerse ⬈      May 2025

- Developed a full-stack TypeScript platform enabling seamless offline demo session bookings with automated QR-based ticketing and email confirmations.
- Implemented QR-based ticketing system with automated email confirmations for seamless scheduling.
- Built an admin dashboard with QR scanning functionality to track attendance and update status efficiently.
- Designed a responsive UI featuring course offerings, booking capabilities, and a streamlined admin interface.

## ACHIEVEMENTS

Runner-up at **EPITOME25** conducted by Gokaraju Rangaraju Institute of Engineering and Technology under the **Fintech** domain.

Runner-up at **Code4AI** conducted by **Rajiv Gandhi Institute of Technology** under the **AI** domain.

Won the 2nd place at **Zignasa2k23** conducted by **Brain O Vision** under the **Smart Education** domain.

## CERTIFICATIONS

A certificate from **Linkedin Learning** and **Microsoft** for completing the **Build Your Generative AI Productivity Skills** with Microsoft and LinkedIn learning path.

A certificate from **Postman** on **Postman API Fundamentals Student Expert**.

A certificate from **Lets Upgrade** on completing the **Git and Github Bootcamp**.
